

# ANGLING TECHNICS VOLT POWER PACK

## STAY FULLY CHARGED WHEN YOU ARE ON THE BANK!

- **Massive Capacity:** With a 222Wh (60,000mAh) Lithium Polymer battery, this power bank keeps your essential devices—like bait boat controllers, fish finders, and phones—running all day.
- **Versatile Charging:** Type-C1 and Type-C2 ports deliver rapid, flexible charging for a range of devices, including laptops and tablets, while four USB ports let you power multiple devices simultaneously.
- **Fast Recharge Options:** Fully recharge in 16 hours with an 18W input or speed things up with a 60W input, completing a full charge in just 4 hours.
- **Smart Display:** Track input, output, and battery levels with a crisp, easy-to-read screen tailored for quick monitoring during your sessions.
- **Integrated Lighting:** Dual built-in lamps provide handy illumination when you need to adjust your gear or tie rigs in low light conditions.

Advanced safety features included. Overload, overcharge, short circuit & over temperature protection ensure you and your devices are protected.

### USB Outputs

The power bank is equipped with four USB ports:

- USB1, USB2, USB3: Each provides 5V=2A.
- USB4: Outputs up to 12V=1.5A.

You can charge multiple devices simultaneously, with two USB ports working together at any given time for added convenience.

### Fast Charging

The power bank supports two charging speeds:

- 18W Input: Fully charges in 16 hours.
- 60W Input: Fully charges in just 4 hours.
- In testing we were able to charge an iPhone 13 eleven times from a fully charged Volt Power Pack - temperature and battery condition dependant.
